

VLAEMYNCK

THE REFERENCE IN OUTDOOR FURNITURE FOR PROFESSIONALS

TECHNICAL BOOKLET 2025

Vlaemynck is proud to present its 2025 collection, an invitation to reinvent your outdoor areas with elegance.

For almost six decades, we have been helping hotel, restaurant and beach area professionals to create unique and inspiring outdoor environments.

Every element of the collection is designed to turn your outdoor area into a haven of peace, combining modernity with timeless appeal. We pay careful attention to every detail of our collections: our products are both beautifully stylish and long-lasting.

This year brings a reminder of our expertise in parasols and promotes the range of finishes available to create the parasol of your dreams.

At Vlaemynck, we prefer to use noble materials that have been selected for their quality and robustness. The combined know-how of our teams of designers, seamstresses and experts results in furniture that fulfils your requirements and is designed to enhance each and every location.

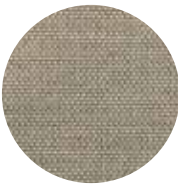

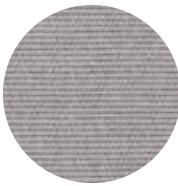

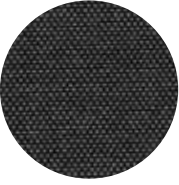

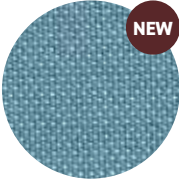

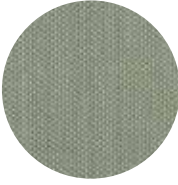

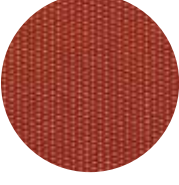

Immerse yourself in the world of Vlaemynck and find out how our passion for outdoor design can turn your project into reality.

VLAEMYNCK

A FRENCH INDUSTRIAL SITE

The history of Vlaemynck is intertwined with that of the luxurious palace hotels of the Côte d'Azur. As a historic manufacturer of parasols and cushions for professionals, Vlaemynck has gradually extended its range of outdoor furniture, applying the same quality standards upon which its reputation was built.

VLAEMYNCK IN A FEW DATES

VLAEMYNCK SOME KEY FIGURES

- More than **60 years** of **experience working with professionals**
- **40 000 new parasols opened** every year on the Côte d'Azur
- **50 employees providing a custom-tailored service to enhance your outdoor living**
- In 25 years, nearly **1 million parasols** have passed through the hands of Vlaemynck's seamstresses
- More than **350,000 m² of fabrics processed** each year in Vlaemynck's workshops

MULTI-MATERIAL EXPERTISE

From humble beginnings as a **textile manufacturer**, to **France's leading player in teak furniture**, Vlaemynck now offers its own collections, drawing on its long-standing **expertise in a wide range of materials**.

LONG-STANDING TEXTILE EXPERTISE

Sewing, cutting out, assembling cushions, parasols, chairs and sunloungers : every day, on the Vlaemynck production and assembly site in the south of Burgundy, men and women devote themselves to carefully repeating these actions that demonstrate their mastery of the art. This is the company's strength : to master each stage of the production (textilemaking, assembly and finishing).

The colour chart of Vlaemynck fabrics is the result of **expertise developed over several decades** and an unfailing commitment to quality and excellence, guaranteeing its customers **exceptional quality products** that combine comfort, easy cleaning and timeless style.

Because of this know-how, Vlaemynck has developed high-quality partnerships over the years with companies that meet the same high standards.

Vlaemynck has selected fabrics with unique properties to meet all requirements and suit all kinds of outdoor furniture.

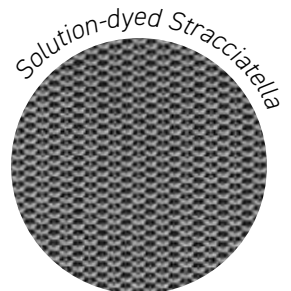

100% ACRYLIC FABRICS

Composition : 100% acrylic

The threads that make up the fabric are created from solution-dyed fibres. The colour pigments are thus directly incorporated into the threads, ensuring extremely long life for the fabric.

- Easy cleaning : **machine washable** at 30°
- **Resistance and reliability**, solution-dyed fabric : **unrivalled resistance to UV and weather**
- **Water-repellent** : prevent absorption of liquids

For which products? Cushions, sofas, deckchairs and parasols.

SUNBRELLA® NATTE QUALITY FABRIC

Composition : 100% acrylic

- Reliability : fabric created by **Dickson, leading French manufacturer on the international outdoor fabrics market**
- Easy cleaning : **machine washable** at 30°
- **Resistance and reliability**, solution-dyed fabric : **unrivalled resistance to UV and weather**
- **Water-repellent** : prevent absorption of liquids
- **Soft feel**, like a fabric designed for indoors, without compromising its resistance to outdoor living

For which products? Cushions and sofas.

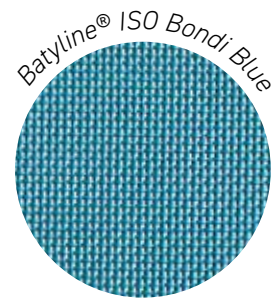

BATYLINE® ISO FABRIC

- **Anti-fungal** : prevents the development of mould
- **Extremely robust** : maintains tension thanks to its ultra-regular weave, resistance to UV and extreme temperatures
- **Keeps its shape**
- **Comfortable** : flexible seat, remains cool even in summer
- **Easy cleaning** : wash with soapy water and a soft sponge

Composition : 72% Chlorofibre (PVC) / 28% Polyester

This product has been treated with a biocide; active ingredient: 4,5-dichloro-2-octyl-2H-isothiazol-3-one (CAS Number: 64359-81-5).

For which products? Chairs and armchairs, sofas, deckchairs and cushions.

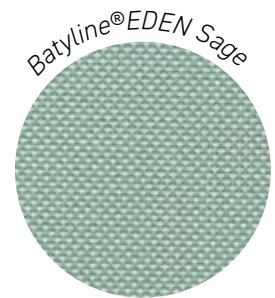

BATYLINE® EDEN FABRIC

- **Silky feel** : softness similar to that of a fabric,
- **Comfortable** : double weave of coated threads and synthetic threads that **dry quickly** and **do not stick to the skin**,
- **Easy cleaning** : wash with soapy water and a soft sponge,
- **Robust** : lint-free, resistance to humidity and mould,
- **Durable** : solution-dyed fabric, **resistance to UV and extreme temperatures**,
- Now also available in a **Waterproof version** for the RIVAGE, LODGE and GORDES collections

Composition : 72% Chlorofibre (PVC) / 20% Polyester / 8% High-tenacity polyester

*This product has been treated with a biocide;
active ingredient: 4,5-dichloro-2-octyl-2H-isothiazol-3-one (N° CAS : 64359-81-5).*

For which products? Cushions, deckchairs, sunloungers, chairs and armchairs.

OTHER OUTDOOR TECHNICAL FABRICS

Fabrics specific to certain collections : OTF or Sling finish OTF.

All technical outdoor fabrics at Vlaemynck meet the following requirements:

- Low deformation
- Light and flexible
- Sturdy
- Resistance to UV and weather

For which products? IBIZA (sunloungers only), MARIETA, MILANO, SAN JOSÉ, TEQUILA and VANITY collections

OTFs contain over 70% chlorofibre (PVC) and over 20% polyester.

VANITY Collection
Coordinated OTF

TEAK EXPERTISE

An expert in teak, Vlaemynck is the first **brand to propose outdoor teak furniture** in France. For over 30 years, the teak used by Vlaemynck has been sourced from the same factory in Indonesia, **a trusted partner**, to guarantee that all the teak used for Vlaemynck collections comes from legal plantations, protecting the long life of this high quality tropical wood.

Teak is an **ancient wood**, introduced in Indonesia in 200 AD. It was initially used to build houses, but has gradually become popular for the construction of bridges and boats, and even the creation of outdoor furniture today.

Teak has **exceptional properties**. Naturally rot-proof thanks to the oleoresin it produces, it does not rot in contact with humidity, even in extreme conditions. It is also highly resistant to insects, fungi and weather.

The king of wood for outdoor use ; Teak ; requires no particular maintenance to preserve its natural properties : solidity, long life and simplicity of use.

Comfortable and widely appreciated for its aesthetic appeal, teak **feels soft and silky**, remains cool even in summer, and its honey colour with copper tones takes on an exquisite grey patina over time if it is not treated.

The teak used by Vlaemynck is:

- Natural : untreated and not oiled,
- Grade C : it has knots and other natural patterns, conferring elegance and authenticity. Grade C teak can be taken from trees less than 30 years old and does not necessarily come from the trunk, which is why it is pale in colour with patterns.
- Oiled teak table tops : a protective oil is applied to the table top to protect it for longer against liquids and to postpone the development of the grey patina. Regular treatment is required to preserve its natural honey tones. Vlaemynck oiled teak table tops are Grade A : the wood used comes from the centre of a tree between 30 and 50 years old, its colour is uniform and it has no knots or patterns.

Vlaemynck has become an expert over the years in the most prestigious outdoor materials, and the teak products illustrate this **know-how**.

MULTI-MATERIAL EXPERTISE

METAL

Supported by the expertise of the Fermob group, Vlaemynck uses metal for its collections. Extremely sturdy and easy to clean, it is a perfect material for outdoor furniture.

Metal also offers a certain environmental benefit, being more than 98% recyclable.

Vlaemynck collections are mostly made of **aluminium** and **steel**.

Aluminium

- Light
- Keeps its shape and withstands micro-impacts

Steel

- Highly resistant
- Able to withstand repeated loading without deformation

The outdoor paint used by Vlaemynck for its steel and aluminium furniture is resistant to weather, rust and corrosion.

Vlaemynck also proposes furniture made from **galvanised** and **stainless steel**, two materials ideal for use in salty environments. Resistant to sand, salt and corrosion, these materials are particularly suited for beaches and terraces by the sea.

OTHER MATERIALS

THE WICKERWORK

Inspired by traditional furniture made from wicker and other natural fibres, the Nylon® Wicker weave is a long-lasting alternative that is easy to clean, ensuring impeccable aesthetics.

Composition: 100% polyamide.

DEMOISELLE Collection

MAKE A LASTING IMPRESSION, BUT NOT ON THE ENVIRONMENT!

INTERNAL INDICATORS TO PROMOTE THE REPAIRABILITY & RECYCLABILITY OF OUR PRODUCTS

To demonstrate its commitment to creating long-lasting products, the Group has developed two additional indexes that are specific to Fermob:

- The IREP repairability index
- The IRCY recyclability index

These indexes, which have been **part of the design process of our products since 2019**, are intended to highlight our virtuous approach to product lifespan, while preserving our head start in the fields of repairability and recyclability.

The repairability index (IREP) was the first to be formalised after discussions were initiated in 2018. It assesses the repairability performance of our products, which depends on a combination of three factors: **how easily they can be taken apart, availability of spare parts, and the degree of technical expertise required for repairs.**

IREP enables each of our products to be graded on a scale from 0 to 2:

Cannot be repaired

Can be repaired by a professional
with access to specific
tools or expertise

Can be easily repaired by private
individuals using simple tools
(e.g. screwdriver)

As for **the recyclability index (IRCY)**, it measures the recycling potential of products at the end of their lives. It considers the **types of materials used to make the product, the presence or absence of recycling obstacles** (ease of material separation, electrical or electronic components, etc.), and the **maturity of the recycling processes.**

The classification thus comprises three categories, represented by a specific colour code:

Non-recyclable

Mostly recyclable

Totally recyclable

In the context of this continuous improvement initiative, these indexes, proactively created by Fermob, are designed to evolve. They will be adapted as the months go by to include increasingly precise score criteria.

MEASURING AND PROMOTING THE ENVIRONMENTAL IMPACT OF OUR PRODUCTS

Whether it's using the right amount of raw materials, limiting our production waste, optimising our packaging or developing solutions to ensure the sustainability of our products, eco-design has been part of our DNA for over 30 years.

In addition to developing our in-house IREP and IRCY indexes, we have decided to carry out Life Cycle Analyses (LCA) of our products. The LCA relies on a scientific approach:

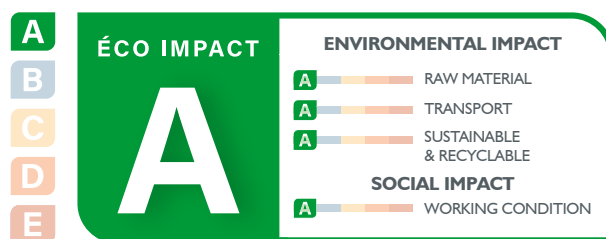

- **multi-stage**, taking into account every stage in the life of a product
- **multi-criteria**, evaluating between 12 and 16 criteria for impacts on air, water, biodiversity, climate, etc.

This allows us to determine the **environmental impact** of our furniture and lighting. To date, the Fermob Group is the only **French manufacturer** in its sector to carry out this assessment for **all its product references** (excluding accessories).

THE GOAL OF THIS APPROACH IS TWOFOLD:

- Improving the environmental performance of our existing and future products.
- Highlighting our efforts and expertise in sustainable design.

For our furniture, the results of each LCA are presented as a **score**, a letter associated with a colour, to provide a **precise, clear view** of the environmental impact of our products. This proactive approach, which is unique in its scope, has enabled Vlaemynck to anticipate many of the legal requirements for labelling in the furniture sector. We are already sharing this information via fact sheets available on our B2B website.

We work with Eco Impact, an independent third party, to guarantee the authenticity and accuracy of this score. We can thus remain true to our ambition to communicate **clear and transparent** information to our customers.

MANAGING END OF LIFE

Vlaemynck has been working with Ecomaison since 2013; this eco-organisation collects and restores used furniture to give it a second life or ensures the recycling of its materials.

Ecomaison's missions are to collect and sort used items of furniture, and to meet the recycling and recovery targets set by public authorities. Vlaemynck commits to this process by:

- Upholding a long-standing tradition of creating **eco-designed** products
- **Informing and raising awareness among its consumers** on the use of eco-participation
- **Promoting donation and reuse in partnership** with players from the non-profit sector

NEW SOLUTION-DYED FABRICS 2025

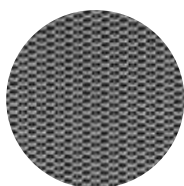

We believe that every moment spent outside is precious, so at Vlaemynck we put all our creative expertise into selecting fabrics that are both **elegant and durable, while remaining easy to clean**.

Particular attention to detail has been put into each of our new fabrics. The natural textures, sophisticated colours and subtle patterns illustrate our promise to propose a range of unique fabrics to personalise your outdoor areas to suit your style.

At Vlaemynck, aesthetics and quality go together, and all our new solution-dyed fabrics meet the same standards of resistance. **Unrivalled performance against UV** and weather, excellent **resistance and easy cleaning**... so many benefits to ensure the success of Vlaemynck fabrics.

100% ACRYLIC FABRICS

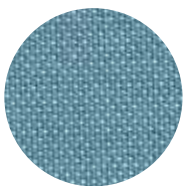

TEXTURES COLLECTION

Stracciatella
M0 1284

- A knitted finish on an ultra-thick fabric (680g/m²) for a textured effect full of character,
- The same weave as Pearl, a 2024 innovation, creating harmonies with different degrees of intensity,
- Two thread colours for maximised nuance.

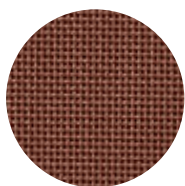

SOLUTION-DYED FABRIC

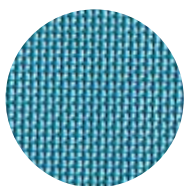

Adriatic Blue
M0 3941

- A sophisticated finish with two thread colours,
- Medium weight fabric (280g/m²) ideal for either large parasols or decorative cushions,
- A new shade of blue to decorate your outdoor areas with a chic nautical theme.

BATYLINE® ISO

Brick
BI 50866

Bondi Blue
BI 50865

- Two dynamic new shades to enliven your outdoor areas in perfect harmony with your cushions and parasols,
- The resistance of Batyline® ISO: extremely robust, keeps its shape.

OUR SEASONAL FAVOURITES FROM VLAEMYNCK

The elegance of Rivage in Stracciatella colour on a Basalt frame, enhanced by decorative cushions no. 88. Complete the look with notes of Clay Grey and Liquorice from Fermob for a truly harmonious composition.

- 1 Rivage, Basalt frame, Stracciatella fabric
- 2 Rivage, Basalt mid-height table
- 3 Decorative cushion No.88
- 4 Clay Grey Piapolo stool by Fermob
- 5 Liquorice Oto lamp by Fermob

The elegance of wood enhanced by the refined finishes of Vlaemynck: a wave finished with white braid for the Koto parasol, comfortable seat cushions decorated with Wicker fabric on Lodge... All you need to create a haven for relaxation.

- 1 Lodge table 70x70
- 2 Lodge teak chair
- 3 Koto D250 wave + braid finish
- 4 Moulded parasol base
- 5 Fermob Moon! lamp H.41 Red Ochre

OUR SERVICES

VLAEMYNCK, SERVING PROFESSIONALS SINCE 1965

Vlaemynck has built its reputation through close collaboration with professionals.

This special relationship has naturally created a sense of meaning and a quality of service that are deeply rooted in our company culture, enabling us to find solutions and provide assistance to suit the requirements of each and every customer.

ASSISTANCE WITH YOUR PROJECTS

A specialised team of consultants proposing 3D drawings to help you visualise your projects and assist with the layout and design of your outdoor areas.

INSTALLATION

As well as delivering your order, we can arrange for trained personnel to unpack, assemble and install your furniture and collect packaging from any new products. For a furniture replacement project, we can also collect your old furniture.

PERSONALISED ADAPTATION TAILORED TO YOUR REQUIREMENTS

Our Special Projects department is available to propose products to meet specific requirements in terms of your brand identity (charter, logo, etc.), particular functions or custom designs.

LEASING OPTION

Have you considered long-term rental for your outdoor equipment? Vlaemynck proposes easy, optimised payment solutions with 12-60 monthly instalments to finance your outdoor equipment project. As well as developing your project, our teams can assist with financial optimisation, including long-term rental options and three-year replacement offers to preserve the optimal attractiveness of outdoor areas, which are a precious asset to showcase your quality of service...

CÔTE D'AZUR EXCLUSIVE: SEASONAL RENTAL

Our Mouans Sartoux branch proposes specific seasonal business services for professionals on the Côte d'Azur: rental and delivery of equipment, servicing and repairs, weekly cleaning of covers, etc. All these services are available to meet your operational requirements.

CONTRACT UNIT, DEVOTED TO PROFESSIONAL PROJECTS

SUPPORTING YOU IN ALL YOUR PROJECTS

To **professionals in the hotel and restaurant industry, retailers and shop-fitters, architects and landscape designers**, who themselves deal with hotel and restaurant professionals, **managers of public spaces** or **office** exteriors, to all those who sponsor projects that involve welcoming the public outside, all those who design outdoor spaces, all those who want the best for their customers, their guests, strollers, passers-by... the **Contract Unit** is for you, all over the world.

As professional outdoor spaces are the showcases of both private and public institutions, they must be personalized and attractive, and thought must be given to their every aspect - furniture, lighting, separators, parasols and decorative accessories - to create uniquely styled, complete layouts for all professional outdoor spaces.

To coordinate our activity and offer the highest level of service, **a team of 50 people** within the Contract Unit is **exclusively dedicated to consulting and professional projects** : layout advice, developing 2D/3D plans and 3D files for your mock-ups, bespoke products, customised services, installation and assembly.

ARCHITECTURAL SERVICES & CONTRACT PROJECTS

Architects, landscape designers, project retailers, designers and decorators play a key role in the choice of furniture for large layout projects.

This is why the **Contract Unit team supports them** by keeping the documentation up to date (metal and colour charts, catalogues, technical documentation, etc.) and by providing them with 3D files for drawing up their layout plans for projects in the hotel and restaurant industry, for public spaces or office exteriors.

Find all our collections modelled on Pcon.

TAILOR-MADE ADAPTATIONS AND MANUFACTURING

THERE'LL BE NO SENSE OF DÉJÀ-VU

Our **manufacturing expertise** means that you can choose customised options down to the very last detail.

Coordinate your cushions with the fabric for your chairs and parasols.

Even better : make your mark by adding your logo or a graphic element.

Our furniture blends into your decor to enhance it: your terrace is unique, a reflection of your company.

VILEBREQUIN LA PLAGE

L'Ondine, Cannes

A WIDE CHOICE

- Printing on fabric (solution-dyed, Batyline® or special awning)
- Adapt your own fabric to one of our models,
- Embroidering cushion or mattress covers...

All requests will be examined by the Bespoke Project department.

There is a wide range of solutions which can be adapted to the material and space (restaurant, bar, beach, lounge, swimming pool).

TO PLACE AN ORDER

① **Choose your structure colour** - example :

- RIVAGE - Sunlounger - Basalt frame - **V5162413**

② **Choose your fabric type** :

- 100% Acrylic fabric or Sunbrella® Natté quality - **M0**
- Batyline® Eden - **BE**
- Batyline® Iso - **BI**
- Batyline® Eden Waterproof - **BEW**

③ **Choose the colour of the fabric** :

- Refer to the Vlaemynck colour chart

RIVAGE - Sunlounger - Basalt frame	V5162413
Sunbrella® Natté quality finish	M0
Natté colour : Light Grey	5423

THE COLLECTIONS

SHADOW

THE PARASOLS

At Vlaemynck, our **exquisite finishes are testament to our expertise**, from the material we source down to the tiniest details on our products.

Although a parasol has a practical purpose, it also has a key role as part of the decor and acts as the centrepiece of a terrace. With its enormous proportions and its incredibly important role, each parasol requires particular attention.

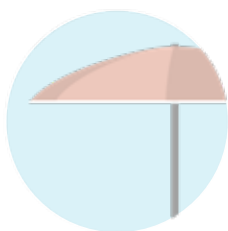

That's why most of our **Vlaemynck parasols have a white braid finish**, the brand's iconic signature, and are **delivered with their own storage cover** (excluding the PAXI collection).

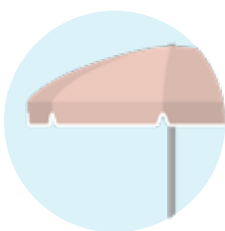

PARASOL FINISHES

At Vlaemynck, we believe in excellence in every detail. Thanks to our unrivalled expertise in parasols, we propose elegant and functional solutions to enhance your outdoor areas. See our range of specially designed finishes for all styles and requirements. Let us help you to create the perfect parasol.

LODGE

Discover the elegance of Vlaemynck's LODGE collection. Each item in this teak collection embodies a sophisticated, timeless style. Teak, with its natural warmth and robustness, is at the heart of this collection, bringing a sophisticated charm to every lounge and dining area. Some items are also enhanced by aluminium, adding a hint of modernity and lightness to the collection, or by high-quality fabrics offering comfort, softness and customisation. LODGE is a **comprehensive collection**, ideal for **embellishing all areas** of an establishment. Every detail has been meticulously thought out to ensure perfect harmony. Immerse yourself in a universe offering a natural balance between comfort and visual appeal as you fall under the spell of this charming collection.

LAYOUT N°1

LAYOUT N°2

LAYOUT N°3

COMFORTABLE CUSHIONS DESIGNED FOR AN OUTDOOR USE

3 choices of outdoor fabrics:

- 100% Acrylic fabrics
- Sunbrella® Natté quality : 100% acrylic
- Batyline® Eden Waterproof : 72% Chlorofibre (PVC), 20% Polyester et 8% Polyester high-tenacity, backing Waterproof.

High resilience polyurethane foam padding :

Chosen by Vlaemynck for its ability to return to its original shape after deformation, even after long periods of use. Cushion thickness: 12 cm.

Backrest polyurethane flock foam filling.

The modules are supplied with Anti-vibration glides : double glides available to connect the modules together and make the layout more stable.

TEXTILE / PIPING COMBINATIONS

Piping finishes as standard for Solution-dyed and Natté fabrics only (excluding Batyline® & TX, GO & MX collections). Finishes without piping for special contracts and on request.

BEACH

The history of the Vlaemynck brand has always been closely associated with the beach.

Since the end of the 1970s, Vlaemynck has been adorning the private beaches of the most prestigious hotels on the French Riviera with parasols and sunbeds.

In 1995, the family company Ghigliano, with expertise in parasol workmanship passed down from father to son, joined forces with Vlaemynck. Together, they now equip more than 98% of the beaches on the Côte d'Azur with rental and maintenance services for parasols and sunbeds.

We have built on our expertise in the specific demands of beach furniture to extend our range of products to fulfil the needs of professionals.

Relaxing on well-designed deckchairs, enjoying meals with family or friends under parasols with sleek designs... each item of furniture is testament to our close attention to detail and constant concern for the comfort of users and professionals, as well as integrating technical solutions to ensure durability even in the difficult conditions of seaside locations.

Our products are designed to blend into the landscape and enhance the view.

For more than 50 years, Vlaemynck has been on trend, resisting time and weather, retaining originality to protect against that sense of *déjà-vu*.

TEAK COLLECTIONS

Our teak collections stand out thanks to their exceptional adaptability to coastal environments. Teak is well-known for its durability and resistance to bad weather, offering a reliable solution for rapidly changing conditions at the beach, whether it's the salty air or exposure to the sun. Its honey colour with coppery hues takes on an exquisite silver grey patina over time if the wood is left untreated.

Teak is a wood with exceptional qualities, making it ideal for creating elegant and comfortable living spaces at the beach, combining visual appeal with function in perfect harmony.

LODGE

LIVADI

IBIZA

ZENITH

Our other woods that fulfil the same resistance qualities for outdoor use as teak – the **DEAUVILLE collection in ash** and the **KOTO collection in koto wood** – are also ideal for creating a uniform look in wood for seaside areas, from furniture to parasols and director's chairs.

DEAUVILLE

KOTO

COLLECTIONS WITH POLYPROPYLENE

Our furniture designed fully or partially in polypropylene fulfils the requirements of coastal environments. Its exceptional resistance to harsh weather and UV rays makes it the ideal choice for the beach. Light, easy to maintain and available in a variety of elegant styles, our polypropylene furniture offers the perfect balance between durability and visual appeal, allowing you to create comfortable and welcoming relaxation areas by the sea.

COLLECTIONS IN STAINLESS, ANODIZED AND GALVANIZED STEEL

Discover our collections in stainless, anodized or galvanized steel, specially designed to overcome the challenges of living by the sea. Thanks to high-quality materials and its solid construction, our special beach furniture in steel offers unmatched resistance to maritime conditions. Designed to last, it will have no problem withstanding UV rays, salt and humidity, maintaining its sophisticated good looks year after year. Opt for peace of mind and unrivalled durability at the seaside with no compromise.

TECHNICAL & MAINTENANCE

SYMBOLS

FURNITURE CHARACTERISTICS

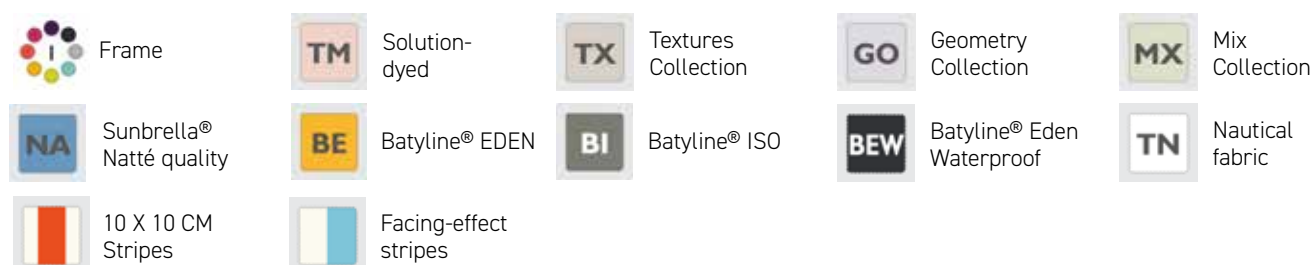

FABRIC CHARACTERISTICS

COLOURS

Defines the number of colours available on :

GLOSSARY

A

ANODISED ALUMINIUM

Anodising is a process by which an ultrathin coating is applied to aluminium, giving it a specific colour, hardening its surface (fewer scratches) and stabilising its appearance over time. This treatment is ideal for saline environments.

B

BRUSHED ALUMINIUM

Brushed aluminium is an aluminium that has been mechanically treated with metal brushes.

G

GALVANISED STEEL

Galvanised steel is crude steel with anti-corrosion treatment (a layer of zinc is applied to prevent it from rusting). Before painting, it has an untreated, matt grey appearance.

H

HIGH-RESISTANCE POLYURETHANE FOAM

This foam returns to its original shape after being compressed, even after extended use. All our cushions are designed to resist compression of 30 kg per m³.

HPL TABLE TOP

High-pressure laminate (HPL) is a composite material made up of several layers of kraft paper and a thermosetting resin-impregnated decorative paper.

L

LACQUERED ALUMINIUM

Lacquered aluminium is an untreated aluminium that has been painted.

P

PIPING

A narrow cloth strip between two pieces of fabric, slightly protruding at the seam.

POLYPROPYLENE

Polypropylene is a fully recyclable, lightweight, convenient plastic. It is highly resistant to impacts, frost and heat and is easy to clean. Its high resistant properties make it ideal for use in saline environments.

S

STAINLESS STEEL

Stainless steel is a steel and chromium alloy that is highly resistant to rust and corrosion.

CLEANING

OUR FURNITURE'S SURFACES

FABRICS

PRE-WASHING AND ROUTINE CLEANING – Cushion in place on the furniture

Vacuum your cushion. If there are any stains, quickly dab them to absorb the liquid with a paper towel, cloth or towel.

Wash the fabric with a soft brush and soapy water (washing-up liquid or mild soap), giving special attention to any stains.

Rinse with clean water.
Allow to dry in the open air.

WASHING – Removed cushion cover

Machine-wash on a gentle cycle compatible materials, following the recommendations on the label.
Close the zip fasteners first. **Allow to dry in the open air.**

Dry-iron the cover if required.

At the end of the season, wash the cushion covers before tidying away/storing your cushions indoors, protected from dust and moisture.

We strongly advise against:

- dry cleaning,
- the use of devices such as high-pressure cleaners, tumble dryers and steam irons
- the use of abrasive liquids.

OUTDOOR TECHNICAL FABRICS (OTF) AND BATYLINE®

Use soapy water or **Fermob multi-purpose cleaner.**

Spray or apply with a **soft sponge**. Rub gently with a soft brush.
Rinse with water.

Wipe clean.

Regular cleaning is recommended. Very dirty surfaces may require a second application.

TEAK

If you have left your garden furniture outside, it will have turned grey over time. You can get it back to its original colour by following the following steps :

Wash the teak
with a brush and soapy water.

Sand the teak with sandpaper (grade 120 or 240 depending on how grey it is) in the direction of the wood grain.

Wipe the sanded area
with a clean cloth
to remove impurities.

P147 : see our specific teak products

You can also use a degreasing product, which is more aggressive to the wood and is therefore not recommended as an initial approach.

METAL

To preserve their original appearance, most of our materials require **basic precautions**. They can be damaged, to a varying extent, depending on the product type, by:

- **mechanical factors:** wear and tear, scratches, impact, distortion, etc.
- **chemical factors:** acids, bases, solvents, etc.

Our surfaces must therefore be cleaned in accordance with the following principles :

- **Systematically carry out a preliminary test on non-visible** and restricted areas to determine compatibility (e.g. under the seat or table top),
- **Do not use abrasive products** or products which may affect the condition of the surface (abrasive sponges, wire wool, pads, scouring creams or powders, dyed textiles which may leave marks, etc.),
- **Do not use aggressive chemicals** (solvents, alkaline detergents, etc),
- Beware of retention zones in which cleaning products can be trapped, leading to further damage,
- **Comply with the conditions of use** of the products used (dilution, diffusion, application time, etc.),
- **Do not use high pressure equipment,**
- If your table has a solid top, tilt it slightly, to prevent water from accumulating when it is not in use,
- Avoid prolonged contact with objects that may retain water or moisture (such as flower pots or trivets),
- **Never cover the furniture with non-breathable tarpaulin** or plastic sheeting that will retain moisture,
- Clean off any bird droppings as soon as possible, as these are particularly corrosive.

Our recommendations are as follows :

Use soapy water or a **detergent with a neutral PH (5 to 8).**

(VLAEMYNCK Multi-purpose cleaner or household items such as dishes or windows)

Apply with a **soft sponge** or a white soft cloth made of a non-abrasive material.
Rinse with water.

Wipe carefully with a microfibre cloth to prevent limescale marks.

FOCUS ON MULTI-PURPOSE CLEANER

- Allows you to clean all your Vlaemynck furniture
- Effective on metal (aluminium or painted steel), Outdoor Technical Fabric (OTF), woven resin, synthetic fibres... (Do not use on teak)

The following products may be used but they should be diluted and subject to extensive compatibility testing:

- Ethanol
- Bleach (98% dilution)

We strongly advise against the following non-exhaustive list of products; unless appropriately diluted, they could damage our materials:

- Alcohol, isopropanol
- Petrol, white spirit, solvents, dissolvents
- Hydrocarbons, caustic soda, ammonia
- Alkaline detergents (pH>9)
- Acids
- Polish
- Products to remove graffiti
- etc.

CARE AND MAINTENANCE

V3953NT - TEAK CLEANER

Cleans natural or oiled teak
1 Litre

V3953HT - TEAK PROTECTOR

Protects oiled teak and maintains its original colour
1 Litre

V3953KT1 - COMPLETE TEAK RENOVATION AND MAINTENANCE KIT

Revives oiled teak

INCLUDES :

- 1 litre of teak cleaner (ref. V3953NT)
- 1 litre of teak protector (ref. V3953HT)
- 1 pair of gloves
